## THE STREET LIVES!

NOWADAYS its called streetstyle. We just always called it street skating. either way its RAD AND ON THE RISE. there are a lot of New skaters updown these days. Kasey Beach is the current hot spot. But I would like to see more varied locations. Just skating one place all the time gets boring as hell to me. I mean 2 hours north of street inverts on a bench is just too redundant. Do one then go somewhere else. also when was the last time you went downhill? Now theres excitement! going downhill at an eye watering speed then pulling off 60 foot layback at the bottom. Best Defies, 360° Reverts, AND 2 wheel splices.

TREXOR AT THE CURB  
photo by MARTIN

there has been a couple of street jams this year that were just killer. But what we really need is a Loading Dock Contest. Loading Docks are Hellsk Terrain, think about it and organize one. if you haven't got to skate the new Bank off S.S.R. then check it out. Its totally RAD.

the current street Dock is about 20'x9" a very functional size and shape But your editor finds satisfaction in something about 4'x3' Don't laugh till you try it. You might get dooped out. Santa Cruz Slimeballs are the hot street wheel. Check em out in 424 and 474. But if you really DARE put on a set of Freestyle Bones (FIA) AND BLAZE uncontrollably. Off Yea!
